

IGNITE: From Harness Intelligence

Launch your AI journey—countdown to liftoff

Inside *Ignite* you'll find:

- Quick-start videos (1 min each)
- Mini-scenarios & reflection prompts
- Social questions for peer sharing
- Downloadable job aids
- Leadership guidance video

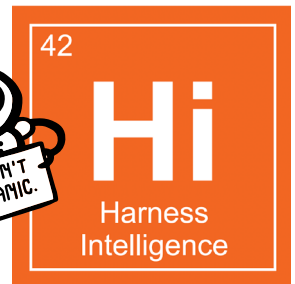

Ignite the engines. Start your ascent. Reach new heights—together.

85% of employees hesitate to adopt new tools until they see value in their own work. *Ignite* **helps you beat those odds** by turning AI from hype into hands-on skill—fast.

Ignite lights the spark for your AI journey from Harness Intelligence. In just 60 minutes of learning in the flow of work, you'll move from curiosity to confidence with hands-on practice, practical prompts, and clear guardrails. Start small, learn fast, and build real skills that stick. Then it's time to go to the laboratory.

What you'll gain:

- **Confidence** — demystify AI and see real workplace value.
- **Capability** — learn practical prompts and real use cases.
- **Guardrails** — understand do's/don'ts to use AI responsibly.
- **Momentum** — move from first try to daily habit in 90 minutes.

*"I've heard a lot about AI and was a little weary, but after the fun, easy-to-use *Ignite* experience, I'm excited to continue to use it and build exciting new skills."*

How it works (6 steps):

1. **What's all the fuss?** – Break myths, see the big picture.
2. **Meet your new coworker** – Reframe AI as a thought partner.
3. **Hands on the wheel** – Try fast wins with *Copilot*.
4. **What good looks like** – Avoid pitfalls, aim for clarity.
5. **Real work, real wins** – Apply AI on the job.
6. **Safe and secure guidance** – Align with known issues, best practices, and specific corporate guidance.
