

# 2024

## My *Symphony* notes and reflections

- 1. How has a manager helped you improve performance?**
- 2. Consider the analogy of leader/conductor: How is a leader like a conductor?**
- 3. Focus on reality: What are some changes you are facing today that impact performance & your leadership?**
- 4. From the *Symphony* performance influences:**
  - Which influence would I consider first?
  - Which Influence might I miss considering most often?
  - Which tools do I use today?
  - Which tools should I take a closer look into to better understand and apply with my team?
